Lightings of Protection Class II

Luminaires in which protection against electric shock relies on supply at safety extra-low voltage (SELV) and in which voltages higher than those of SELV are not permitted.

Because of the complex manufacturing process of the LED, the above shown data are just a statistical size, which is not forced to be the realistic data of every LED.

The light source of this luminaire may only be replaced by the manufacturer or by a service technician appointed by him or by a comparable qualified person.
